

Bharat Tiwari

Frontend Developer (React.js) | MERN Stack Developer

Haldwani, Uttarakhand | 9389591306 | bharat123tiwari123@gmail.com | github.com/bhanu292 | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building and supporting real-world web applications using **Vue.js, Quasar, Firebase, JavaScript, HTML, and CSS**. Worked as a Software Trainee at **mPebbles Technologies**, contributing to the Parent PadhAI App and KKamAI Market Heat Map. Currently strengthening **React.js and MERN Stack** development skills, with practical experience in API integration, Git/GitHub, and responsive frontend development. Available to join within 1 week; open to relocation and remote opportunities.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React.js, Vue.js, Quasar
Backend / Services	Firebase
Tools	Git, GitHub
Development	API Integration, Responsive Web Development, Local Storage

PROFESSIONAL EXPERIENCE

mPebbles Technologies — Software Trainee

Full-Time Intern/Trainee | Sep 2025 – Mar 2026

- Contributed to real-world web application development using **Vue.js and Quasar**.
- Worked with **Firebase** and Git/GitHub as part of the development workflow.
- Contributed to the **Parent PadhAI App**, working on the Library backend section and School Setup Admin functionality.
- Worked on the **KKamAI Market Heat Map**, including stock-basket functionality and frontend development.
- Collaborated on application development and contributed to implementing and improving project features.

PROJECTS

Gym Management System | HTML, CSS, JavaScript, LocalStorage

- Developed a frontend-based gym management application independently.
- Implemented member management, attendance, payments, search, and reports.
- Used browser LocalStorage for persistent application data.

Weather App | HTML, CSS, JavaScript, Weather API

- Built a weather application using a weather API to retrieve weather information.
- Displays city, temperature, humidity, and wind speed with dynamic JavaScript rendering.
